

StarVestments

Outstanding bugs

- Search Page - results page is not relevant to query
- Support Page - not putting body into email
- Active link in navbar does not default to anything
- MyProfile Page - can not switch users
- Home Page - just pulls the first games from the database not the popular or highest priced
- Forum - comments not displayed, cannot post or share or comment

Key Components

Home Page - quick view information for users

Support Page - contact us about bugs or congratulate us on making such an amazing website

Search Page - shows results for search query's

Games Page - list games tracked by our site
